## **DETAILED ACTION**

### ***Response to Amendment***

1. Examiner acknowledges that the applicant has canceled claims 33-39 and newly added claims 41-16, which depends on an allowable base claim 40.

### ***Terminal Disclaimer***

2. The terminal disclaimer filed on 03/10/2003 has been recorded.

### ***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance: the claims recite a semiconductor light bulb comprising, an air chamber within a heat sink that has an entrance proximate a fitting for installing the device in a socket for receiving electrical power. From that entrance, air would proceed toward the top of the bulb, turn 90 degrees to move laterally a predetermined distance, then turn 90 degrees to move down toward the bottom of the bulb, and out an exit proximate the fitting. Because none of the reference disclose the detailed structure of the air chamber, nor is there any motivation to combine them, the claims are deemed patentable over the prior art of record. Claims 40-46 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
